

Eureka!

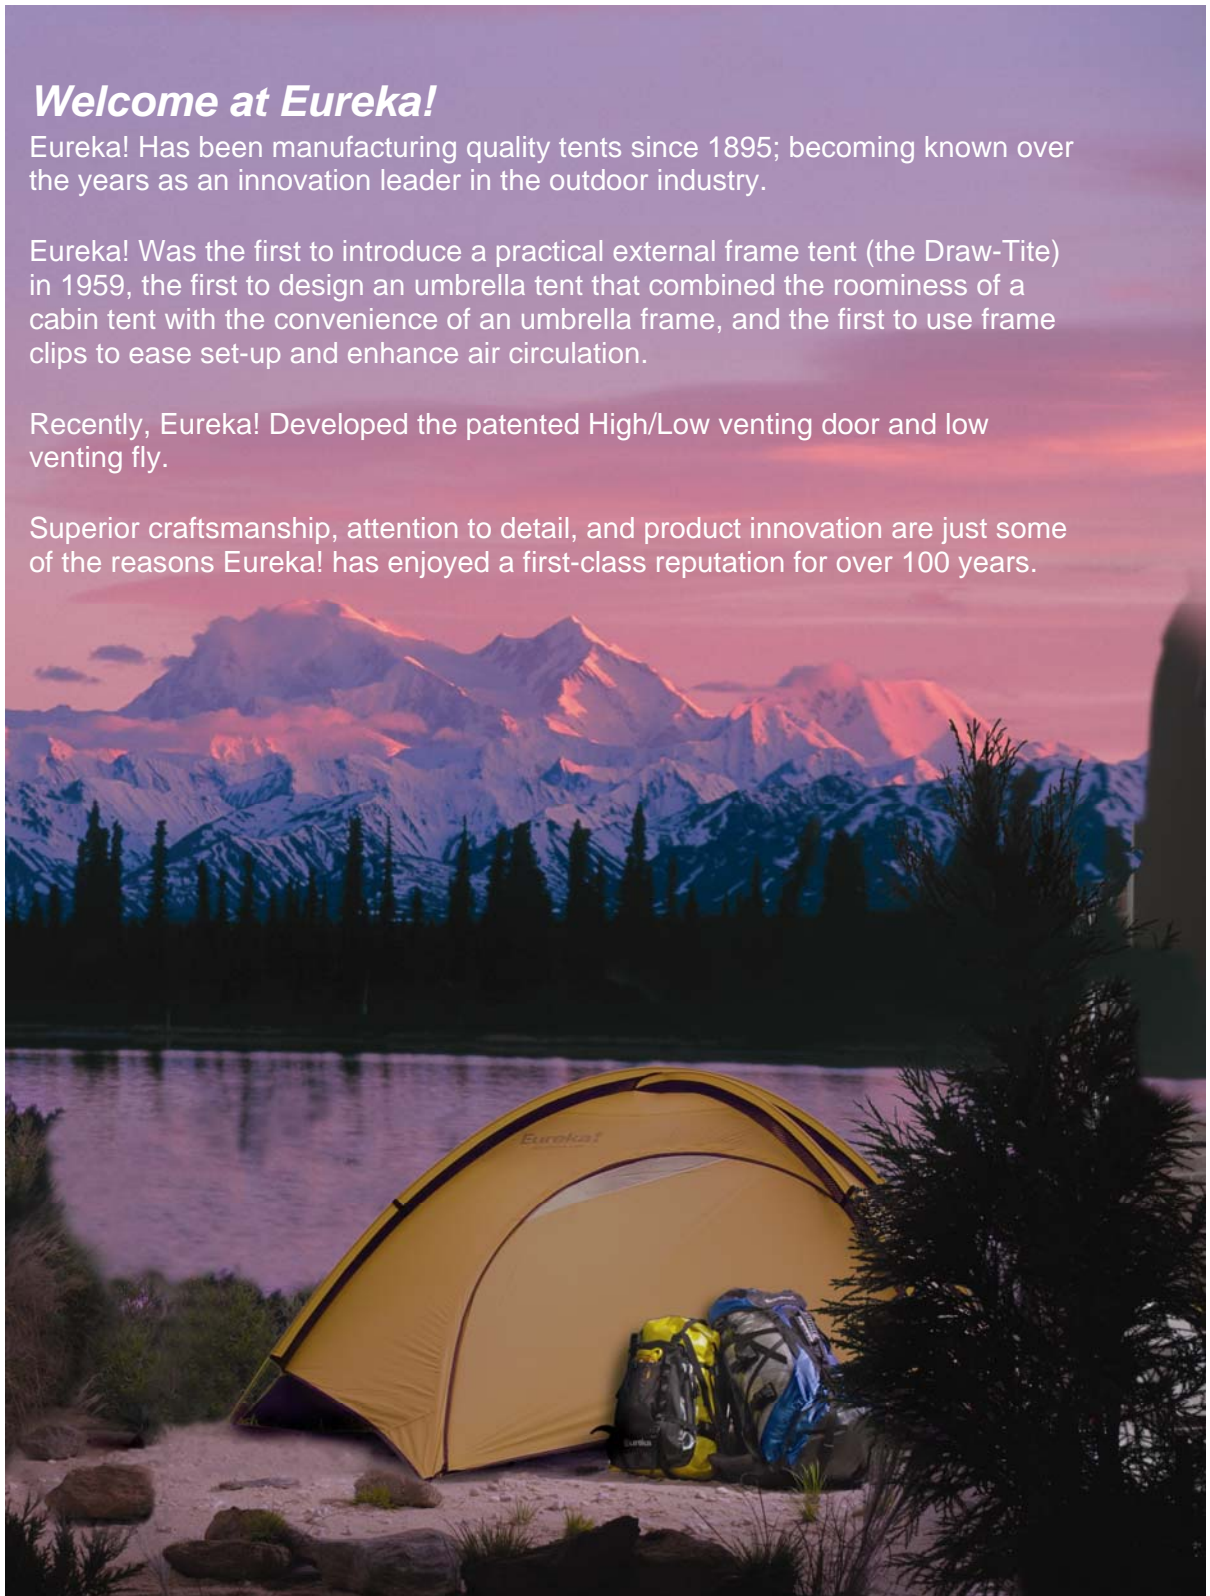

Welcome at Eureka!

Eureka! Has been manufacturing quality tents since 1895; becoming known over the years as an innovation leader in the outdoor industry.

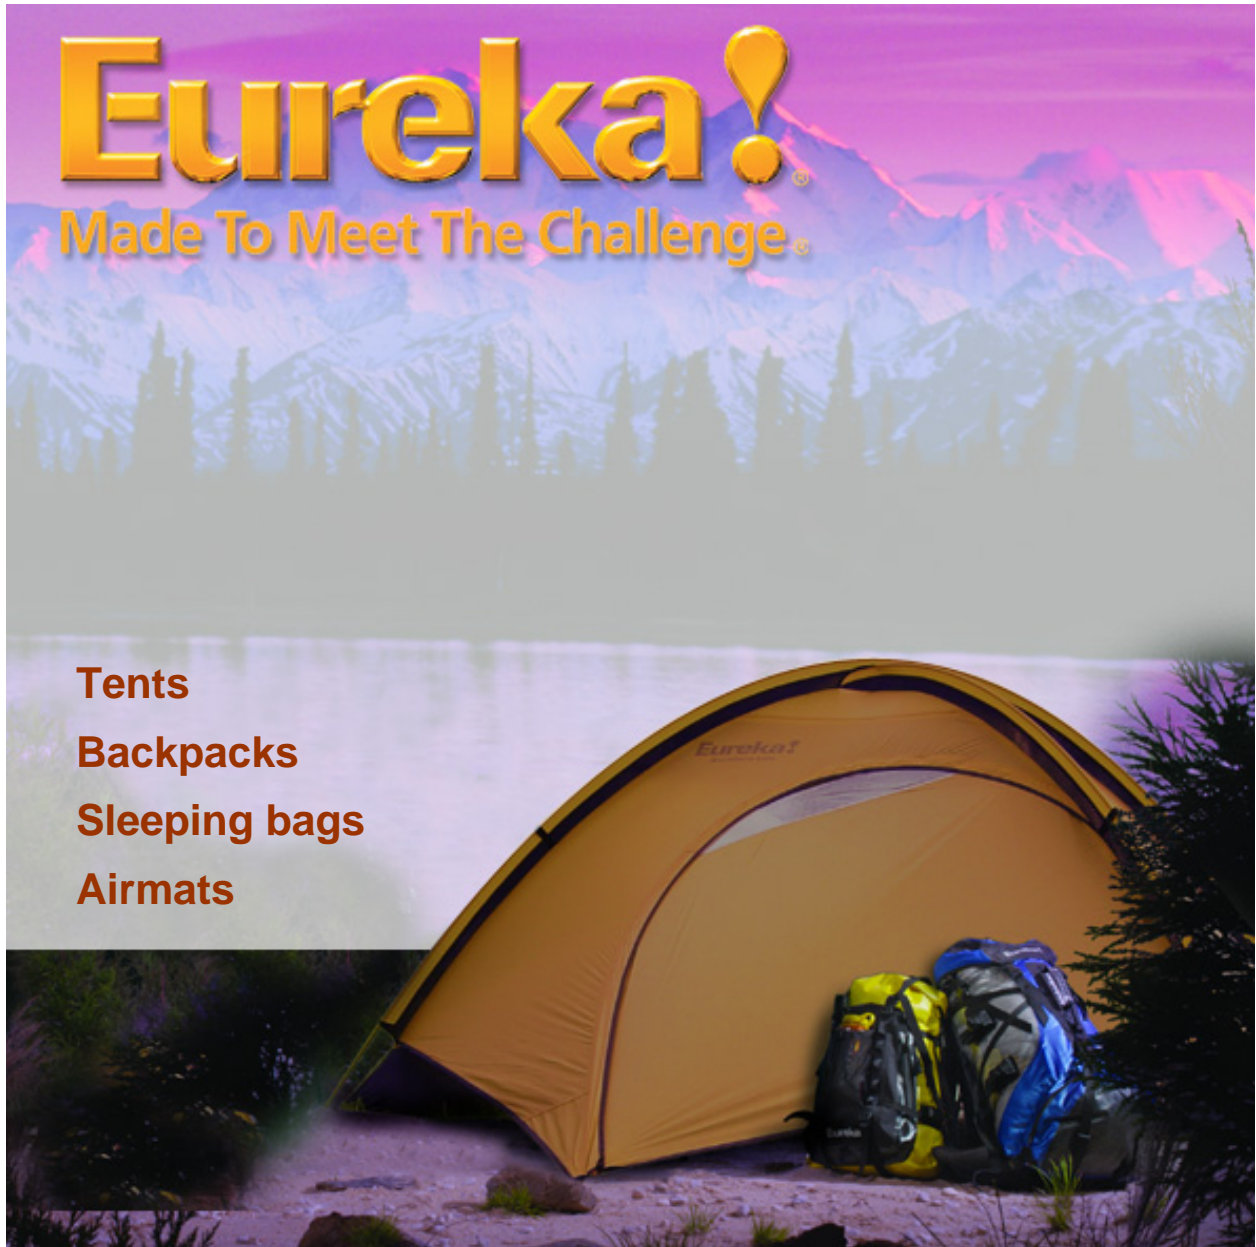

Eureka! Was the first to introduce a practical external frame tent (the Draw-Tite) in 1959, the first to design an umbrella tent that combined the roominess of a cabin tent with the convenience of an umbrella frame, and the first to use frame clips to ease set-up and enhance air circulation.

Recently, Eureka! Developed the patented High/Low venting door and low venting fly.

Superior craftsmanship, attention to detail, and product innovation are just some of the reasons Eureka! has enjoyed a first-class reputation for over 100 years.

Caucasus Birding Ltd. is an official distributor in Georgia and Caucasus of the US based outdoor equipment producer company Eureka! The products prices are agreed to meet the market demands of the region. Besides, the products listed below, we are pleased to accept orders for any Eureka! product in any quantity. Eureka product catalog can be viewed at: www.eurekaeurope.com
